We make Connected Business Champions

About mm1

Connected Business means: to make use of the possibilities of digital connectivity for more growth and for improved operations.

With around 100 experts, we help organizations through their digital transformation. We support by creating the right digital products and processes for an increasingly connected world.

**We make
Connected
Business
Champions**

What makes us special: Clear focus and an excellent expert team put us among the top rated consultancies

Focus

Connected Business

We are a leading specialized consultancy at the intersection of digitalization and connectivity

Team

100 people

We are 100 consultants and experts.
Each one of us with an above average level of expertise regarding digitalization and digital transformation.

Expertise

Award winning

We are regularly awarded with the „Beste Berater“ (‚best consultancy‘) award
We are among the Top 10 consultancies for Innovation & Growth in Germany.

Experience

> 20 years

We are in business since 1997.
Since then, we have been involved in more than 400 projects for developing digital products and connected solutions.

What is „Connected Business“?

We let our projects speak for themselves:

Connected Business means that ...

... basketball matches can be watched with a 360° VR view even at home

... cars can collect data and cities can utilize their infrastructure better based on that data

... banking customers will be served in their channel of choice

... connected forklifts prevent accidents in intralogistics operations

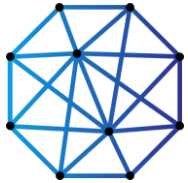

... operations of HVACR system will be improved and made better for the environment

... passengers in cars and in trains can enjoy high quality internet access

With our comprehensive service offering, we help organizations in four key industries to digitally move ahead

Service Offering

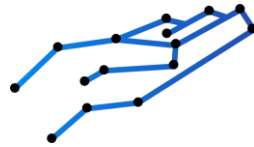

Connectivity

Connectivity – done right. We develop and optimize network connectivity to enable our digital business

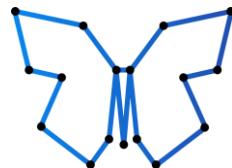

Data Thinking

Data to Value. We develop data driven business models

Digital Offerings
